TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, Java, C, C#, React, React Native, Expo, HTML, CSS, Tailwind CSS, Node.js, Express

Backend & Databases: Firebase Authentication, Firestore, Firebase Storage, SQLite, SQL, Pandas, Streamlit, Recharts

Tools & Platforms: Git, GitHub, Vite, Electron, Figma, Responsive UI Development, Agile Team Collaboration, GitLab

PROJECT EXPERIENCE

College Student & Teacher Portal *(Personal Project)*

- Built a role-based web portal for students, teachers, and admins using React, TypeScript, and Firebase.
- Implemented assignments, attendance tracking, announcements, grades, and file uploads with real-time Firestore updates and responsive dashboard visualisations

HerCycle *(Personal Project)*

- Developed a cross-platform mobile health app using React Native and Expo for cycle tracking, symptom logging, weight monitoring, and fertility estimates.
- Added Firebase sync, doctor-ready PDF export, nearby medical store lookup, and Android build delivery using EAS.

HimaTrack *(Personal Project)*

- Built an Electron desktop app that tracks active applications and processes, stores usage data locally, and runs in the system tray across Windows and macOS.
- Packaged installable Windows and macOS builds and integrated local persistence and Firebase-backed services for application data handling.

UK Census Pipeline *(University of Liverpool Group Project)*

- Contributed to a modular UK Census 2021 analysis pipeline developed as an MSc group project, with my role focused on data analysis and statistical reporting.
- Worked with Python-based pipeline outputs to support socio-economic indicators, correlation analysis, and report generation for an interactive dashboard workflow.

Ecommerce Analytics *(Personal Project)*

- Built a Python-based analytics pipeline and dashboard for processing e-commerce data, visualising trends, and producing business-facing insights.

EDUCATION

MSc Advanced Computer Science
University of Liverpool - Liverpool, UK | Expected Graduation: 2027
Bachelor of Computer Application
Bharati Vidyapeeth - Navi Mumbai, India | CGPA: 8.10/10
